Hi Jessica,

Thanks for the update. Question: Can you please share with the group specific information related to the hearing date/time/location, etc., in case anyone wants to attend the hearing.

Thanks,

Hugo Garcia
Esperanza

I would like to update everyone on the *ex parte* from today. The Court granted our *ex parte* and set a hearing date for October 23rd. Essentially the Court gave us an expedited hearing date at which time argument will be heard regarding the remainder of our requests to comply with the Final Judgment.

Hi everyone,

Thank you for those who were able to participate on the call today.

For our next steps we have:

1. A call for agencies to discuss enforcement on Wednesday at 9:00 AM.
2. A call for stakeholders to discuss updates with agencies on Wednesday at 2:30 PM. I'll send a calendar appointment with the information and provide here- **CALL IN- 888-240-3210 – ACCESS CODE- 8388113**
3. DPH will distribute flyer electronically to group when it is approved (hopefully Tuesday).
4. City Attorney will provide update on court outcome tomorrow PM.

Brief summary of the updates provided today:

DOGGR- AllenCo Energy did not meet the deadline for submitting a well kill plan. DOGGR engineer did not note any activity at AllenCo on Saturday. On Sunday around noon the DOGGR engineer did notice a whining noise coming from the site and around 6:30 PM confirmed the continued noise was AllenCo Energy doing well bleed down with the use of a microturbine. The operator informed the engineer that they are bleeding down wells 4 and 8 in order to make repairs. DOGGR is discussing with the City how to secure compliance.

City Attorney- An ex parte motion shorten time was filed and will be heard in court tomorrow morning. There are several items included in the motion, such as turning on the fence line monitoring and webpage notification system, obtaining LAFD approval, following DOGGR directives, updating CERS, etc. Jessica will provide an email update on court outcomes.

Public Health- DPH is working on a flyer to update the community on the violations, leaks, and potential repair and/or well kill activity on site.

Thank you everyone for your continued participation and flexibility with scheduling these calls.
